# Welcome

You are looking for a wedding photographer on Ibiza and you would like to learn more about my work? It's my pleasure!

You will have me as an expert in the field of fine art wedding photography by your side. I have been working as a photographer for more than 13 years.

Nothing much disturbs me. When it gets hectic, I stay level headed, calm, and helpful.

My goal is to surpass the expectations of my customers repeatedly and so once more go beyond my limits.

I help camera shy couples with much empathy to make completely casual pictures.

My style I would describe as life or editorial style with an eye for detail, where I tell your story with natural, emotional and cheerful shots that I picture in my mind.

Quality is more important to me than quantity.

It is not the number of the photos, but the uniqueness of the pictures, which makes my style special.

I photograph both digitally and on film medium to capture the most atmospheric pictures for you. In the evening therefore I like to change to black and white film.

To be able to focus on you individually, I do not shoot more than 20 weddings per year.

Take your wedding plans one step further! Let me personally take you through my pricing and packages and work out which would suit your requirements best.

Warmly,  
Heike

*Heike*

My name is Heike and I am a Fine Art Wedding Photographer.

For more than 13 years, I have been self-employed as a photographer. I have made over hundreds of couples happy during my shootings and with the photos taken.

My unique style has already received awards and my photos are regularly published in wedding magazines and blogs.

But nothing is as beautiful as the shine in the eyes of my clients when they first see their photos.

As a hopelessly romantic person, I sometimes have tears in my eyes behind my camera and I hope that nobody notices.

I spend my spare time mostly with my treasure, Antoine - cooking, in the cinema or with a hot cup of tea and a book on the sofa! My wild party nights are almost over... However, nothing beats a little dance with loud music, if nobody is watching.

I am excited to hear your love story and wedding details soon and to get to know you better!

Yours truly,  
Heike Möllers
