

THE SCHOLD VARIABLE
HIGH-SPEED DISPERSER—
A STAPLE IN THE MIXING
& DISPERSING INDUSTRY.

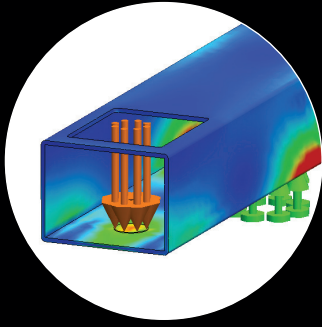

Our high-speed dispersers can be **customized and designed to your exact specifications.** Whether you are looking to disperse powders into a liquid or blend solvents together, Schold has the solution.

When operated on its own, the VHS disperser is ideal for dispersions up to 50,000 centipoise. When configured within our multi-shaft mixers, you can process dispersions upwards of 1,000,000 centipoise.

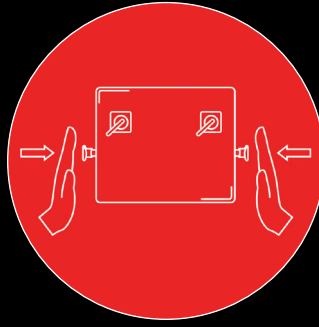

Featured Machine - Schold VHS 500

**BETTER
DISPERSIONS.**

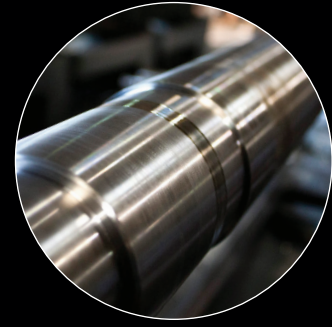

ROBUST DESIGN | Extreme stability assured at higher speeds for tough batching production. Computer-analyzed (FEA) frame design to handle the toughest applications.

ENGINEERED FOR SAFETY | Double-handed lift actuation, telescoping shaft guards, multiple safety switches and optional integrated lid design help keep operators safe.

PRECISION-BALANCED & CONTROL-TUNED SHAFT | Stainless or carbon steel shaft is precision-machined for no run-out; disperser fundamental frequencies are documented and programmed out.

A SOLUTION FOR EVERY NEED
