Show me Fab Labs

AROUND THE WORLD (/LABS)

I'm new here. What's a Fab Lab?

Fab labs provide widespread access to modern means for invention. They began as an outreach project from MIT's Center for Bits and Atoms (CBA), and became into a collaborative and global network. You can find more information about Fab Labs on the Fab Foundation (http://www.fabfoundation.org) Website. The annotated photo below illustrates the facilities of a typical Fab Lab.

Who is fablabs.io for?

I'm an **ENTHUSIAST** and I want to participate with the global Fab Lab Network. Find labs near me, see what's happening in the labs around the world and maybe one day open my own!

I'm a **FAB LAB MANAGER** and I want to add my lab to the network. Then I'll be able to share information and knowledge from my lab and interact with fellow users of the site.
