

- What type of gnt ruled Egypt

• However religion and government linked in ancient Egypt

The Egyptians combined two of the crowns of lower and upper Egypt into one to unite both parts of Egypt.

**The old**  
• Former united Egypt kingdom

• Egypt's royal family had a dynasty

• Pharaoh in Memphis

• Pharaoh evolved from great house to ruler

• Pharaoh was of the gods

• Pharaoh blamed for hard times

• Djoser step pyramid

• Khufu big pyramid for greatness

• A dynasty of a royal family

• The common people believed that their ruler was associated with their religious god

**Khufu's Great**

The Egyptians transitioned from regular to step pyramids for Khufu's pyramid

Pyramids were like corridors with many rooms to store the different prayers for the dead pharaoh

Artists had very strict boundaries on their portrayals of Pharaohs.

→ Crown of Upper / Lower Egypt combined by Narmor

- Farmers did pyramid dirty work
- Giza built for pyramid workers

Pyramid

---

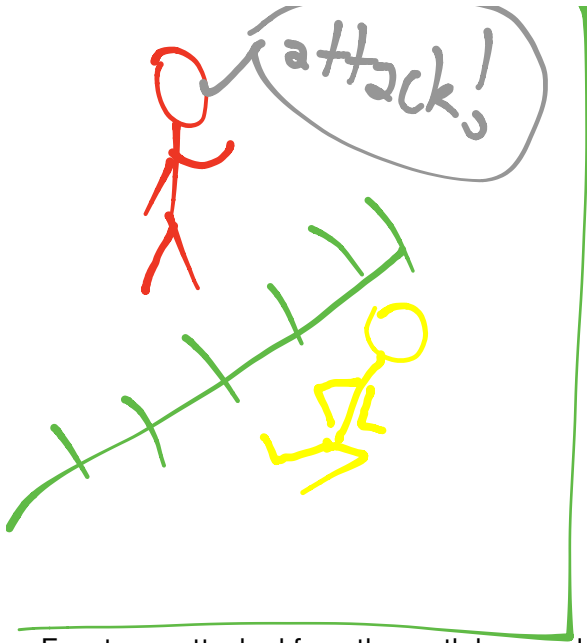

- Transitioned from pyramid to mountain tombs during new kingdom
- Wall paintings w/ happy pharaohs

Grave Robbers

---

- Hyksos advanced w/ on attack
- New kingdom after Hyksos driven out

Middle Kingdom

Egypt was attacked from the north by people with advanced weapons, causing them to have to fight or be taken over, which distracted their kingdom, and brought light to new Egypt, which would shift its focuses.

#### Summary

Egypt learned a lot about mummification, and advanced their ability to hide the dead to protect from grave robbers. While distracted, they were attacked and formed new Egypt which was more advanced.
